This series of workshops will deepen participants practice, understanding and awareness of the tradition of Christian Meditation. It will provide support to teachers wishing to introduce Christian Meditation to their students.

“One of the significant discoveries that has emerged from the introduction of Teaching Meditation to children in our schools, has been (1) The need for the provision of quality teacher formation in this type of prayer and (2) The positive way that teachers have responded to formation in the contemplative dimension of religious education.”—Ernie Christie, Director of Religious Education in the Townsville Catholic Education Office .

The workshops will be an invaluable support to schools wishing to introduce the practice of Christian Meditation to their students.
